The Flower Pot Hen

written by
James Burnett
and Calvin Irons

A book about Representing Data

Flower Pot Hen did not rest.   She wanted her flowers to be the best.

11

Five more.

Fifteen shiny shells for Stella's store.
Up comes a wave and look ...

9

Mice, mice everywhere!
Eight under the floor.

Two behind the door.
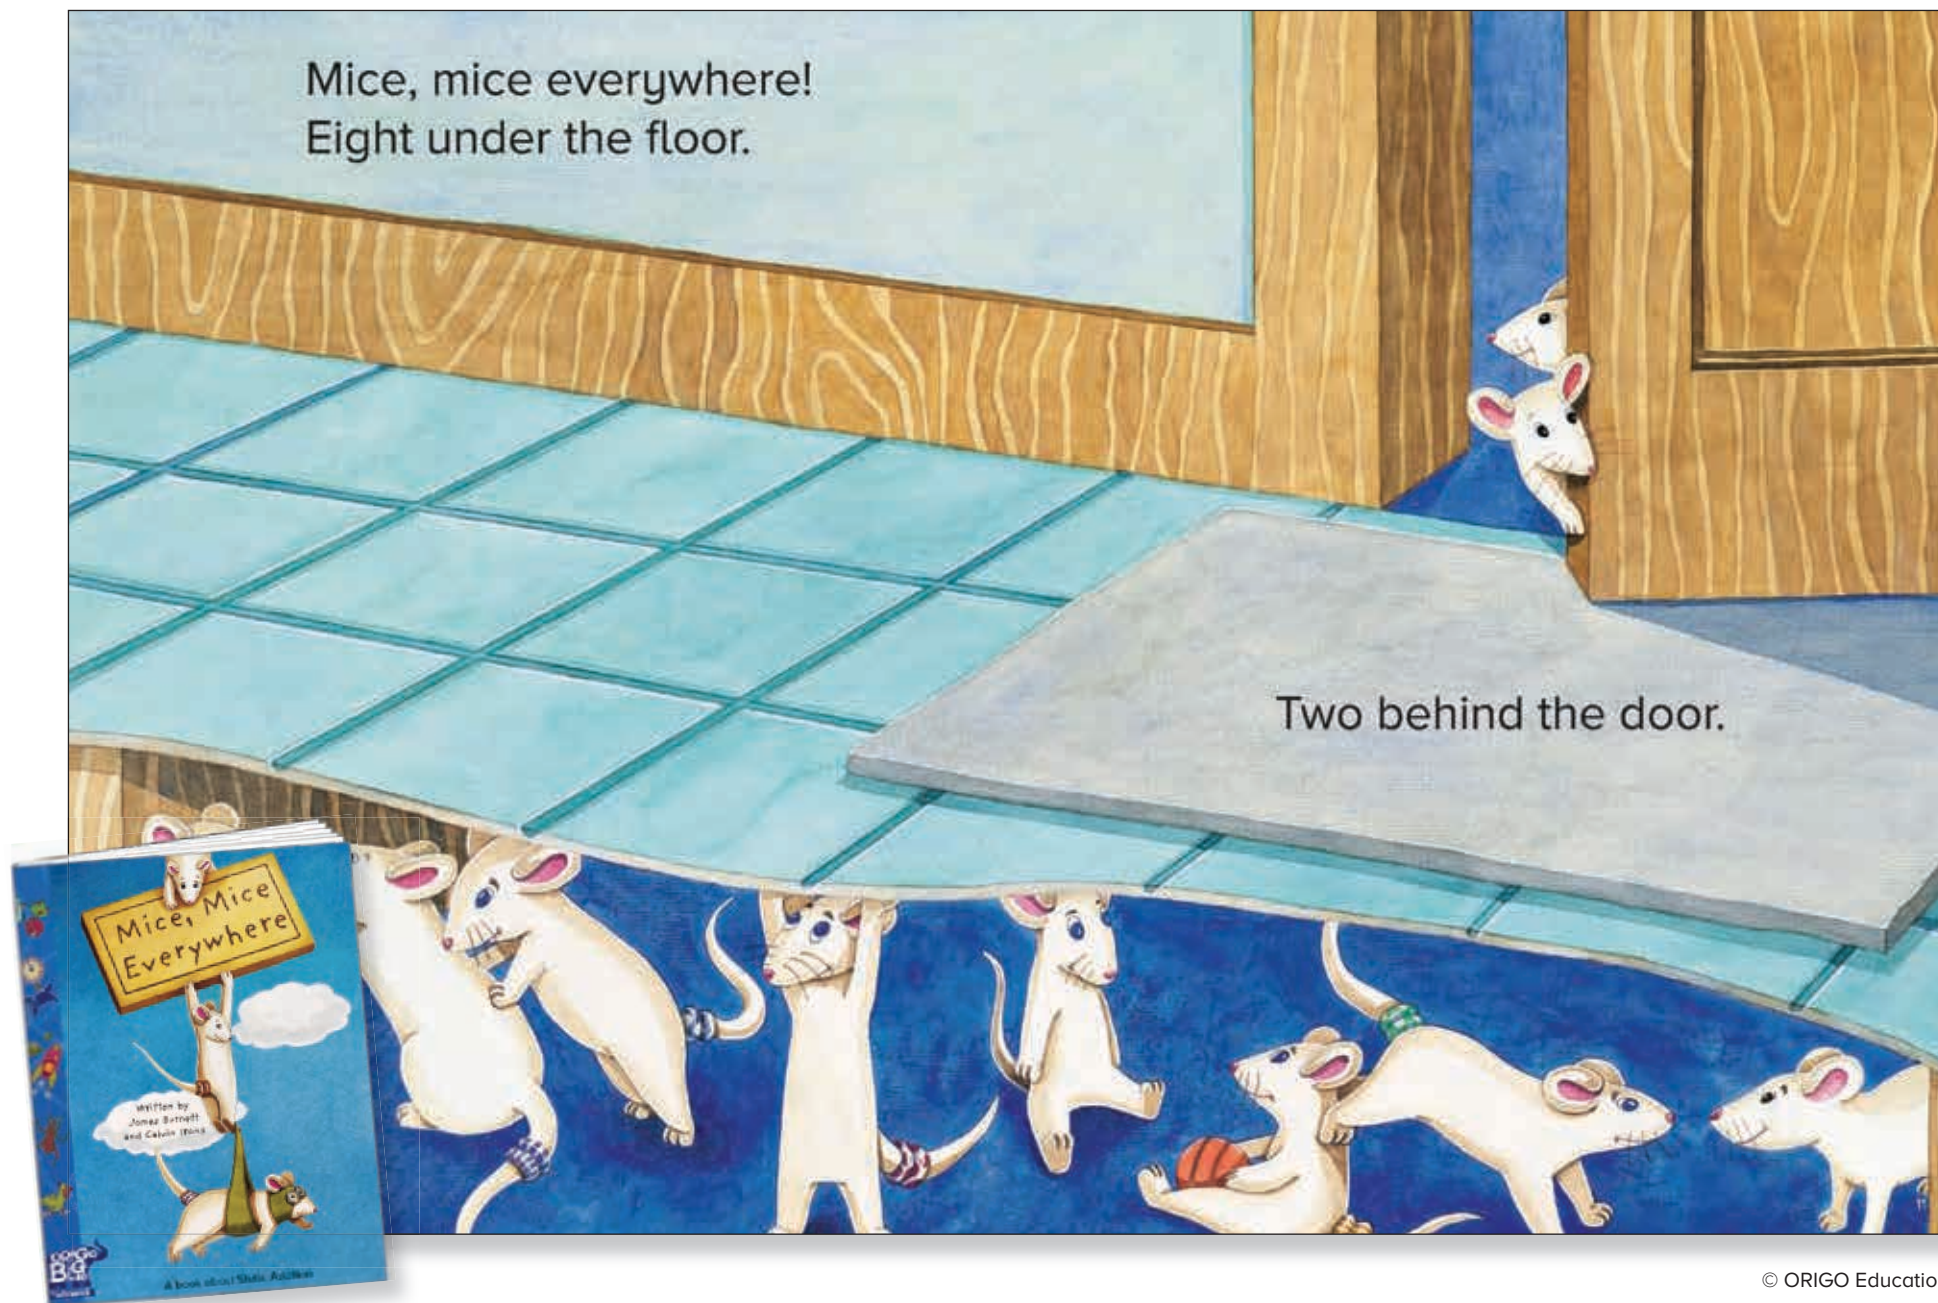

non-standard units of length

Bella took time to aim.
She was sure
she could win this game.

Billy	4	ants long
Betty	6	ants long
Bobby	8	ants long
Bella		ants long
Baby		ants long

How far did she throw?
Count the ants and you will know.

The Best Bug

13

What prints do you see?
What shape could it be?
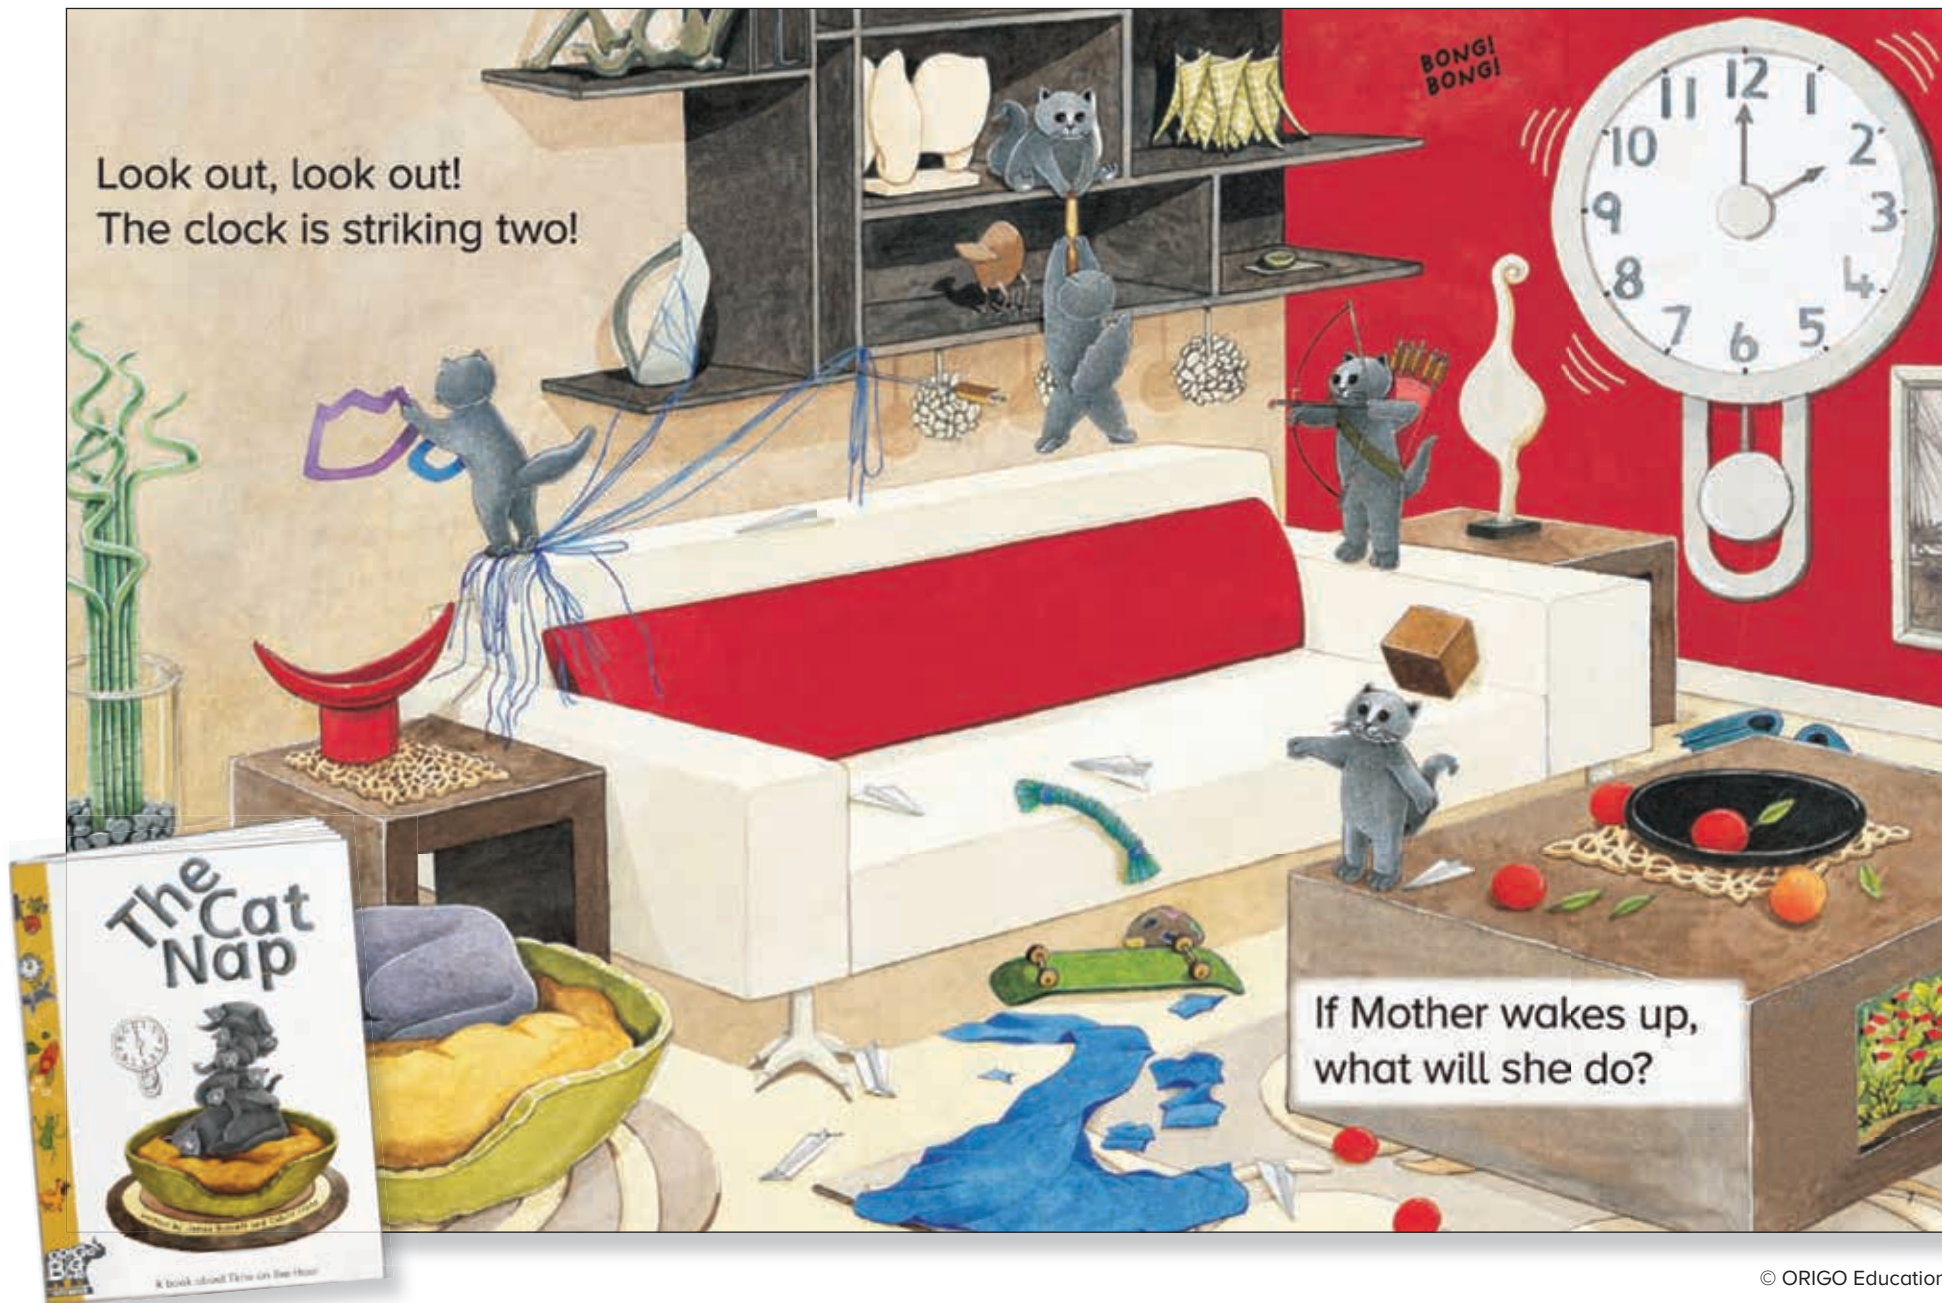

Look out, look out!
The clock is striking two!

BONG! BONG!

If Mother wakes up, what will she do?

Ten happy hens were waiting by the gate.

Two ran out,

The rockets race back in groups of three.

They sprint from across the galaxy.

THE SPACE PARTY
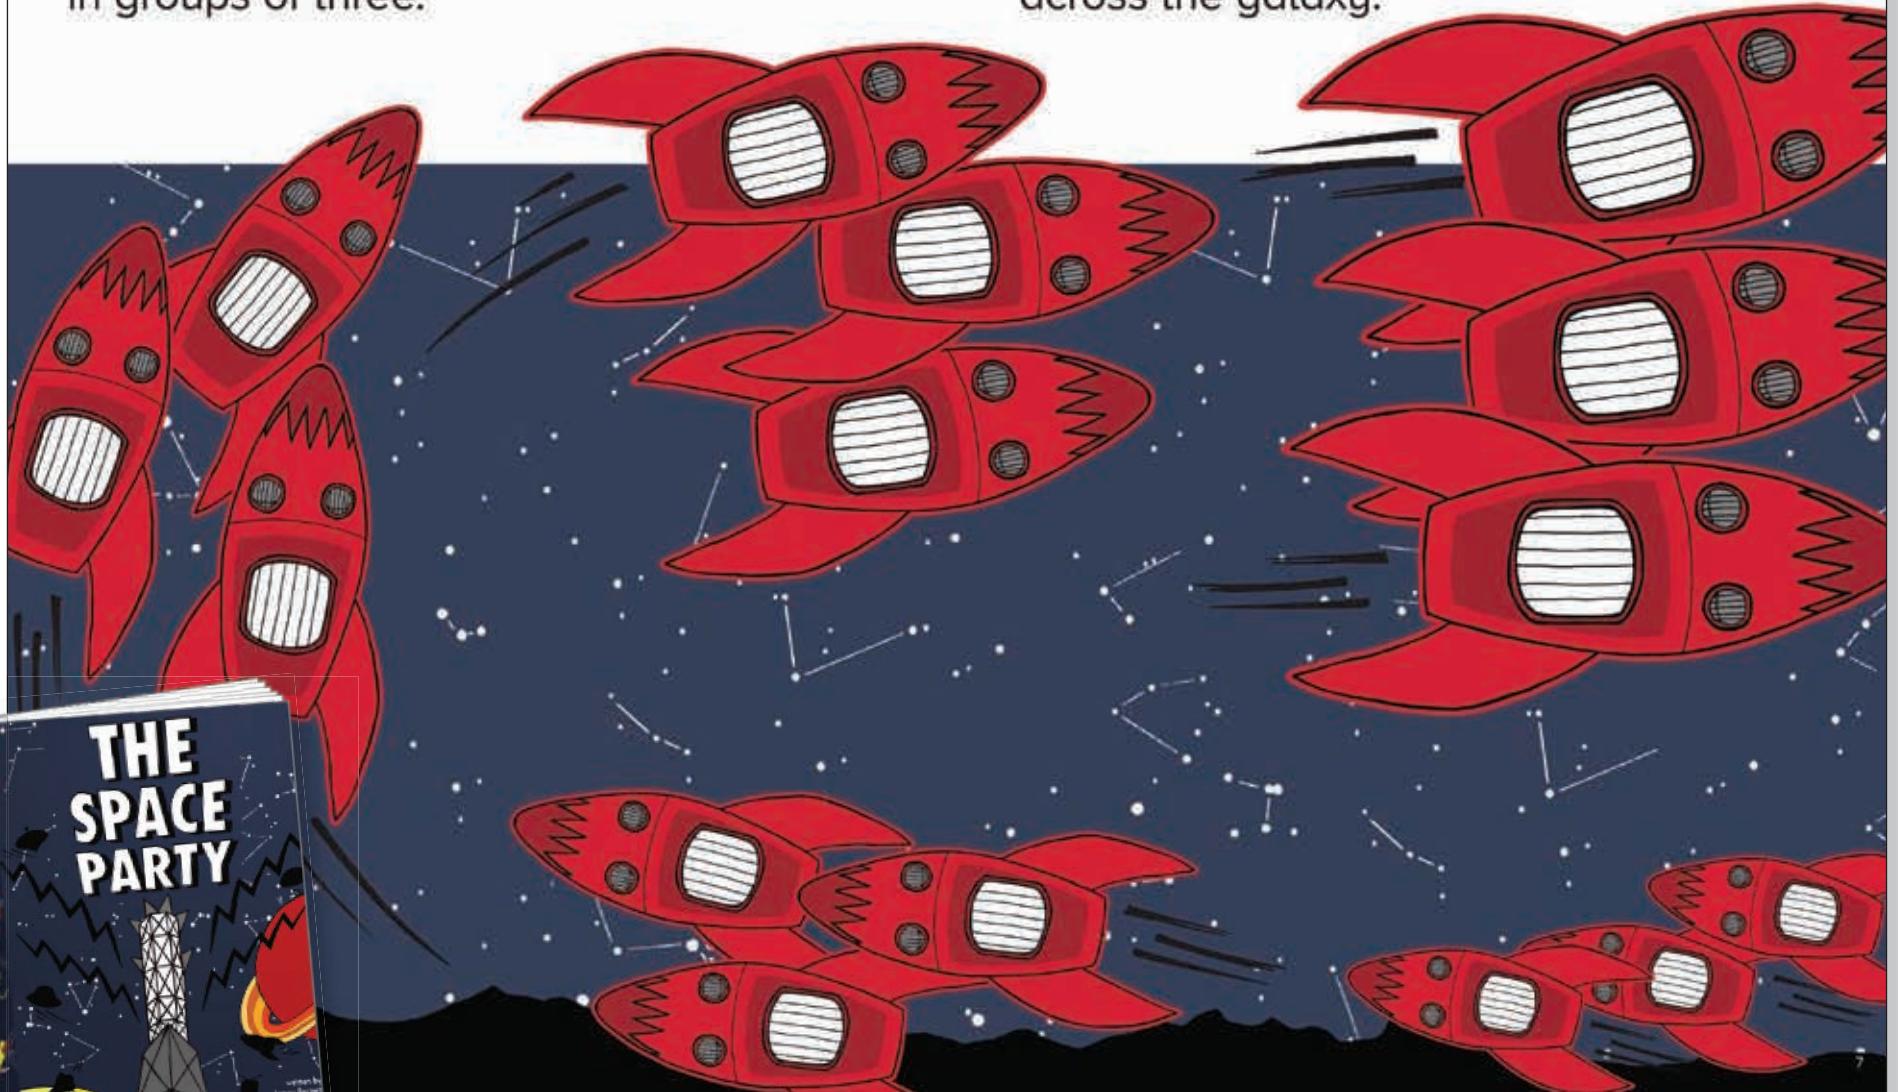

Some patterns look the same.
Some patterns grow.
Look at this garden.
Tell me what you know.

using doubles to add

Five add five.
Addtron is in overdrive.
