Introduction

Puzzle Power Book 1 is a collection of new and challenging word puzzles designed for fast-finishers and/or gifted and talented children who are seeking extension skills in the English area.

Children have always loved the challenge of word-find or search puzzles, crossword puzzles and crack-the-code type puzzles. We have endeavoured to create a variety of new puzzles for children to enjoy and at the same time be extended in the areas of vocabulary building and logic.

There are 10 different puzzle formats in this book and these are repeated 4 times to allow children to develop their confidence and build on their success rate. They can be used as a whole-group lesson or for small-group work. They are also ideal for use in classrooms which make use of individual learning centres.

We hope you enjoy the challenge as much as your students. Good luck!
