Maths Strategies and Practice

**Making Maths Friendly**

1

4

5

What if I can't **find**  
a friendly number?

$$149 + 26$$

?

$$98 + 17$$

$$73 - 9$$

Don't worry, there's not  
always a friendly number to  
find – sometimes you need  
to **make** a friendly number.

First you need to look  
for a number that can be  
made friendly.

6

**Find** the number in each  
addition that is easy to  
make friendly, then circle it.

$$\textcircled{29} + 46$$

$$51 + 26$$

$$155 + 102$$

$$497 + 125$$

7

Now, change these numbers to **make**  
them friendly and show how you did it.

change

friendly

29

+1

30

51

102

497

8

You can **fix** a change by doing the opposite of what you did to **make** a number friendly. **Fix** the change in these additions.

change

$$\begin{array}{r} 29 + 46 \\ \downarrow \quad \downarrow \\ \boxed{+1} \quad \boxed{-1} \\ \downarrow \quad \downarrow \\ 30 + \boxed{45} \end{array}$$

fix

$$\begin{array}{r} 51 + 26 \\ \downarrow \quad \downarrow \\ \boxed{-1} \quad \boxed{\phantom{00}} \\ \downarrow \quad \downarrow \\ 50 + \boxed{\phantom{00}} \end{array}$$

$$\begin{array}{r} 155 + 102 \\ \downarrow \quad \downarrow \\ \boxed{\phantom{00}} \quad \boxed{-2} \\ \downarrow \quad \downarrow \\ \boxed{\phantom{00}} + 100 \end{array}$$

$$\begin{array}{r} 497 + 125 \\ \downarrow \quad \downarrow \\ \boxed{+3} \quad \boxed{\phantom{00}} \\ \downarrow \quad \downarrow \\ 500 + \boxed{\phantom{00}} \end{array}$$

9

You can also **make** friendly numbers by breaking larger numbers into place values.

Can you **make** these numbers friendly?

$$853 = 800 + 50 + 3$$

$$419 =$$

$$272 =$$

$$690 =$$
